

Nice outfit!

Shame about the waste...

Fast-fashion is taking its toll.

Clothes can take decades to break down in landfill and there are many alternatives to reduce, reuse and recycle your clothing instead!

Here are alternatives to just binning your clothing items

1. Swap and share with family and friends.
2. Turns your clothes into cash and sell your pre-loved items in Facebook, Gumtree etc.
3. Donate any clothes in good condition to an Op Shop or charity store.
4. Cut and re-use your clothing as cleaning rags or stuffing for your pet's bed.

What are the benefits of reducing, reusing and recycling your clothes?

- Reduces amount of waste going to landfill.
- Saves resources and reduces pollution.
- Reduces use of wool-cleaning chemicals and fabric dyes.
- Provides affordable clothes for disadvantaged families and individuals.
- As a last resort, clothing that can't be reused or recycled can be discarded in your general waste bin.
